Lahore, Punjab

EXPERIENCE

React Native developer

IIFA TECH

08/2024 - 10/2024 Tech-Lahore, Pakistan

- Developed and deployed cross-platform mobile applications for both Android and iOS, improving app performance by 20%.
- Integrated RESTful APIs to enable dynamic data fetching for user profiles, playlists, and e-commerce products.
- Utilized Redux to manage global state efficiently, enhancing data flow across the application and reducing API calls by 30%.
- Collaborated with the design team to deliver pixel-perfect UIs, ensuring seamless user experiences on various screen sizes.
- Debugged and optimized code for better performance, reducing load time by 15%.

Doctor Appointment App (React Native, Node.js, Express.js, MongoDB)

Associated with The Islamia University of Bahawalpur

02/2024 - 06/2024 Bahawalpur, Pakistan

- Doctor appointment mobile app that allows users to search for doctors by specialty, location, and availability
- Implemented detailed doctor profiles, enabling users to view qualifications, experience, and consultation fees before booking an appointment
- Designed a feature where users can book appointments, selecting their preferred date and time from the available slots
- Created functionality for doctors to view patient profiles, including medical history and previous appointments, to prepare for consultations
- Built a smooth and intuitive user interface with clear navigation, making it easy for users to manage their appointments and access relevant information

MovieMate (React Native)

Personal Projects

06/2024 - 07/2024 Bahawalpur

- MovieMate is a movie browsing app that fetches real-time data from IMDB
- Provides users with up-to-date movie information including ratings and reviews.
- Implemented a robust search feature that allows users to quickly find movies by title, genre, or actor, enhancing the overall user experience and engagement
- Ensured that the app looks and functions well on various devices and screen sizes
- Created a fully responsive interface using React Native

Music Player App (React Native, Spotify API)

Associated by IIFA TECH

09/2024 - 10/2024 Lahore, Punjab

- Created a music player app with features like play/pause, skip, shuffle, and playlist management
- Integrated React Native libraries for smooth audio playback and dynamic track queue management
- Implemented track fetching from the Spotify API to provide users with access to a vast music library
- Enabled users to view artist profiles, including detailed information about albums
- Created an intuitive user interface for seamless navigation between playlists, albums, and individual tracks
- Added a search functionality to discover new music and explore trending tracks and artists

EDUCATION

Bachelor's in Computer Science

The Islamia University

07/2020 - 12/2024 Bahawalpur, Pakistan

SUMMARY

Motivated and results-driven React Native Associate Software Engineer with expertise in developing high-performance mobile applications. Proficient in React Native, JavaScript, and modern development practices, with hands-on experience in building dynamic, responsive, and user-centric applications. Passionate about leveraging cutting-edge technologies and contributing to impactful projects in a fast-paced environment.

CERTIFICATION

React native development (online course)

React Native Developer (IIFA TECH)

SKILLS

React Native	React	Firebase Authentication	
API Integration	Axios	CSS3	Express.js
Git	Github	HTML5	Javascript
Mongodb	Node.js	Npm/Npx	Redux
Redux Toolkit	Restful Apis	Tailwind CSS
